Stateline and Pikes' Diggings is demonstrated in the showing in the Con-Idence mine which is located in the northern portion of the district.

This promising property is owned by Dr. G. H. Fennemore of Beaver, and

Dr. G. H. Fennemore of Beaver, and his associates, and from the doctor, who arrived in the city on Thursday night on business connected with this mine, it is stated that as depth is attained in its development a steady and continuous improvement is noticeable. Sometime ago the Confidence was equipped with a whim, and the bulk-head being removed from the 100-foot station in the shaft the same has been deepened to the 150-foot level, at which point the ore body is very strong, being four feet in width and carrying gold values of 250 to the ton, besides some silver, the rock being free milling and very lively in its characteristics.

The formation, the doctor states, is a contact between porphyry and granite, and although the footwall of the vein is well defined the true hanging wall has not been disclosed as yet, the rock next to the ore body on the hanging wall side being a layer of quartz, which, it is believed, divides the mineral chute, the Indications being that with cross-cutting it will be found that the pay vein is from twelve to fifteen feet in width.

On the 100-foot level work is also pro-

feet in width. On the 100-foot level work is also pro-

On the 100-foot level work is also progressing in the drift being run east on the vein. This drift is now in a distance of twenty feet, the face disclosing a three-foot body of quartz, the metallic contents of which will run from \$50 to \$94 in gold to the ton, besides a few ounces in the white metal. The mine is in splendid condition and from all indications it will make an enviable record for itself as a wealth producer during the coming year. Comfortable cabins have been erected for winter quarters and everything about the property is in shipshape condition. In referring to the mining interests in the near vicinity of Beaver the doctor stated that it is reported that in the Hob Roy on Indian Creek a fine body of minural has been uncovered which assays from \$20 to \$60 in gold to the ion. A good showing has also been made in the Fawn Tracks, on North Creek, while in the property of the Indian Creek Mining company some very encouraging disclosures have been made. In the White Cliff James Mcthe Indian Creek Mining company some very encouraging disclosures have been made. In the White Cliff James McGarry has been pushing development work and has some nice bodies of gold ore exposed to pay him for his trouble. Within a few days the doctor will begin the annual assessment on his Busy Bee lode not far from the Rob Roy, besides which he will do the necessary work on other properties of his in the district, which is called Newton, after an old and successful prospector of that name.

that name.

At Minersville the Monte Cristo mill is being overhauled by J. H. Dupaix, who has equipped the plant with steam power, it being the intention to start it up on Amelia ore from the old Star district by the first of the month providing the weather will permit.

## ON THE WEST DIP.

## Daisy Explorations Are Most Pleasing to Company Officials.

A. H. Mayne, manager of the Dalsy mine on the west dip of Camp Floyd district, who partook of his Thanks-giving dinner in this city, informs The Herald that as work progresses in the operation and exploration of this prospective bonanza the disciosures made are of the most pleasing character, and that the farce of the drifts on all the levels of the property are in fine bodies of excellent milling ore, while the works at the mine are now treating 112½ tons of mineral daily, at a high and most satisfactory saving of values. In alluding to the new discovery made while excavating for the additions to the mill, Mr. Mayne stated that a crossout is being run from the second tions to the mill, Mr. Mayne stated that a crosscut is being run from the second level in the mine to intersect it, the distance between the two parallel veins being in the neighborhood of sixty-five feet, and when the ore body is cut at this depth it is believed it will add much to the value of the property, as the ore in this second ledge is of excellent quality and carries values of from of the twenty-foot shaft sunk upon it at the time of its discovery, the full bottom of the shaft being in this grade and character of mineral, which is a splendid leaching product, the indications being that the ore body is of goodly proportions.

Corded for Northern Light, but it is doubtful it 45 cents would have brought out much of the stock, large blocks of which have been picked up by capitalists and heavy dealers during the past week, all signs indicating a still further advance in this stock in the past week, all signs indicating a still further advance in this stock in the past week, all signs indicating a still further advance in this stock in the past week, all signs indicating a still further advance in this stock in the past week, all signs indicating a still further advance in this stock in the past week, all signs indicating a still further advance in this stock in the past week, all signs indicating a still further advance in this stock in the past week, all signs indicating a still further advance in this stock in the past week, all signs indicating a still further advance in this stock in the past week, all signs indicating a still further advance in this stock in the past week, all signs indicating a still further advance in this stock in the past week, all signs indicating a still further advance in the stock in the out of the past week, all signs indicating a still further advance in this stock in the number of hands have been put on and a shipment is being and a promise of considerable activity in the winter. A wager road the twenty-foot shaft was the owner of the stock in the out much of the stock in th

coming principally within the limits of milling ore, and he is highly pleased with the showing in this property, be-ing confident that with sufficient and intelligent development it will in time become a rival to the other producers

## and dividend-payers of the camp, Stocks on the Curb.

Curbing was not as active yesterday as usual, the coming of a holiday in the middle of the week having a rather the middle of the week having a rather depressing influence on the mining share market, and yet the leading and popular securities were very strong and able to bear up in good shape against the rather, depressing conditions by which they were surrounded, the transactions on the street probably footing up to the dealings recorded on the board of the exchange in the morning, which, as a matter of fact, is not saying much, for the curp generally does more business than the pit can boast of, the latter setting the pace and fix-

## THE MINING EXCHANGE.

One of the Prospective Bonanzas of Stateline District.

After pariaking of turkey and oyster dinners on Thursday, the members of the exchange appeared on the floor yes-terday prepared to do heavy business and the transactions of the hour ran up into goodly figures, the market being more than usually firm, while a number of favorite securities were quite heavy dealers.

As a starter, Buillon-Beck possed a sale at \$2.55. Eagle followed with a ransfer at il cents, the stock being in good form at the close. Four Aces was strong, but buyer and seller could not set together on this stock, although only divided by a cent or two. Geyser-Marion participated in the transactions of the day, the sales being based on quotations established on the board on prospective buyers and sellers. Main participated in the transactions of the day, the sales being based on quotations established on the board on prospective buyers and sellers. Main participated in the transactions of the day was a seller at \$1.12½ and still this security was very strong and but very few offerings were recorded, it being impossible to cause a fluctuation of more than usually firm, while a sale at \$2.55. Eagle followed with a ransfer at \$1.55. Eagle followed with a ransfer at \$2.55. Eagle followed with a ransfe

deed was today recorded by James H

Larsen of Eureka, wherein James Wilson of Eureka conveys all right and title vested in him to the Minney More lode and Fraction lode mining claims, situated in the Tintic mining district, to the said James H. Larsen, for the consideration of \$75.

Mining Notes and Personals. The Wasatch mine of Bingham is in with a consignment of ore.

E. D. Wilson has taken desk room in the office of H. H. Smith, No. 23 More-ian block,

an niocz.

The Utah of Fish Springs had a carload of high-grade ore at the sampler yesterday.

Fred J. Leonard was yesterday admitted to membership in the mining stock exchange by acciamation. The Centennial-Eureka had three cars of a good grade of copper, gold and silver ore at the sampler vester-

The directors of the Northern Spy will hold a meeting today in the office of the secretary of the association, A. Hanauer, Jr.

The Utah Asphalt & Varnish company held a meeting yesterday, and levied an assessment of half a share on its capital stock.

The Dexter of Tuscarora, and the North Mountain, also a Nevada gold producer, were in at the Con. K. C. sampling works yesterday with shipments of cyanides.

W. E. Hubbard left yesterday to look at his Ophir and Tintle interests, and while absent will inspect the workings of the Columbia mine, and also of the Star Consolidated.

Colonei H. G. Heffron spent Thanks-giving with his family in Zion. It is reported that the colonel is finding good values in the development of the Rover mine, near Mercur. The Sacramento Mining company has declared its regular monthly divi-dend of half a cent a share, or \$5,000, payable on Dec. 1. The transfer books of the company will close at 5 p. m. to-

Fred Senior, who has returned from a long stay in Cripple Creek, Colo, states that this great gold camp is en-joying a steady and substantial growth,

and that new discoveries of importance are constantly being made there. Times, Halley, Idaho: S. W. Gundaker, superintendent of the Big G. Mining company of Chicago, came in from Smolty today, via Soldier, with a party of Chicago stockholders in his company. They intend to stay here until Friday.

Will Lawrence company.

Will Lawrence, superintendent of the Will Lawrence, superintendent of the Star Consolidated, near Mammoth, left for the mine last night, for the ourpose of beginning regular and heavy shipments from this Tintic bonanza, which, from now on, will make an excellent record in this line, the ore being of fine grade. Mr. Lawrence is making a splendid showing in the management of this property, and is building up a "rep" for himself, such as any young man might well feel proud of. Henry MacKay of Boston, one of the young man might well feel proud of.
Henry MacKay of Boston, one of the principal owners in the stock of the La Clgale Mining company, Is at the mine, on the west dip of Camp Floyd district, waiting for the starting up of the mill with its new roasting plant, which, it is expected, will take place within the next few days. In the development of this property the main shaft has now reached a depth of 300 feet on the veln, the bottom of the workings being in a good grade and class of milling ore. The attainment of this depth proves conclusively that the ore deposits of the west dip go to the deep, which is an important demonstration, as far as the future of this the mill with its new roasting plant, which, it is expected, will take place within the next few days. In the development of this property the main shaft has now reached a depth of 500 feet on the veln, the bottom of the workings being in a good grade and class of milling ore. The attainment of this depth proves conclusively that the ofe deposits of the west dip go to the deep, which is an important demonstration, as far as the future of this stration, as far as the future of this exposure. They appear before Justice Smith this evening.

M. Bixby, M. E., has returned from California and Oregon Mr. Bixby inspected the Greenback mine in Josephine county, owned by Messrs. Moffat, Smith and others, and, in speaking of this property, stated that it is one of the greatest properties in the state, and that it had a bright future in store.

this property, stated that it is one of the greatest properties in the state, and that it had a bright future in store, the vein being strong and well-defined, while the ore, which is free milling, runs high in its gold contents, some of it being fairly covered with the yellow metal. It is expected that the five-stamp mill now in course of construction at this mine will begin active operations by the first of the month.

Charlie Bradd of the Alpha on Gran.

operations by the first of the month.

Charlie Bradd of the Alpha, on Grante Mountain, in Dugway district, Deep Creek, who has been in the city the past week to confer with Hon. G. W. E. Dorsey and other officials of the company, left for his camp Thursday, by way of Lehi, having first forwarded a lot of supplies and provisions for the whiter. In speaking of the Alpha, Mr. Bradd states that in its development he has driven a 150-foot tunnel, in the face of which he has a 3-foot body of ore, which will carry average values of \$10 in gold to the ton, the product of the mine being a concentrating mineral, for the treatment of which a mill will most likely be installed at the mine in the spring. During the past season there has been considerable activity in mining in Granite Mountain haunts, and it is believed that in time this will develop into a lively and productive camp.

The feeling prayable that within the

portion of the Showers Consolidated mine on a lease, having an encouraging showing of good ore in the bottom of his 125-foot shaft, which has been sunk at a distance of about 206 feet from the extension of the Joe Bowers ledge, and Mr. Paxman states that some time next month he orthogoes to start a cross-cut from the bottom of his shaft to cut this ledge, the cross-cut, before reaching its objective point, being destined to also cut through the Showers and the Silver Spar veins.

It is understood that it is quite likely that the Showers Consolidated company will soon levy an assessment of 2 cents a share upon its capital stock, for the further operation of its property.

Mr. Paxman states that everything is prospecous in the Silver City end of Tintic district, and that the outlook for that section is tinged with a very rosy hue.

# NEWS FROM OVER THE STATE

# THE NEPHI HOMICIDE IS INSANE.

ANDREW HENDRICKSON WILL GO TO INSANE ASYLUM.

He Killed William Tunbridge at Levan Last July-Nephi Jury Holds Him Mentally Irresponsible.

(Special Correspondence.) Nephl. Nov. 25.—The proceedings in the district court here this morning were de-void of the sensational features anticipried. Andrew Hendrickson was brought into court to stand trial for the murder of William Tunbridge at Levan, on July 5 last, during the Pioneer day parade, when Hendrickson, without apparent cause, rode to the front of the procession of which Tunbridge was the marshal, and leveled a shorgun near his victim's head and scattered his brains over a score of men and women in the vicinity.

After the panel of parors was examined as to their statutory qualifications, the prisoner was brought into court hand cuffed and heavily marded. He was perfectly tractable and docile, although he had made numerous threats, and trouble with him was expected. Little delay occurred in impanelling a jury to inquire into the mental condition of the accussed, and his competency to be put on trial for his life. pated. Andrew Hendrickson was brought

inty Attorney Pike appeared in be-of the people and M. M. Warner of a conducted the examination for the ident.

Provo conducted the examination for the detendant.

Dr. Miner of Mammoth was the first in witness. He testified that five years ago he was called upon to make a professional examination of the accused as to his sanity, and that he then pronounced him insane. He had today made an examination of the accused and considered him insane now. Sheriff Christensen and Deputy Kendall were in turn called and testified as to the action of the defendant since in their custody lift the county fall, and they concurred in the belief that the prisoner was insane.

The defendant, Hendrickson, was then placed upon the stand. He was quite demonstrative and talked a great deal, but mainly in a disconnected and incoherent manner.

Dr. Allen of Provo testified that from

manner.

Dr. Allen of Provo testified that from his examination he had no hesitancy in oronouncing the accused violently in-

John Hendrickson, a full brother of the coused, gave the particulars of a severe pury his brother had received from a low of an iron bar on the head, since hich time he never appeared right mentally.

Judge Higgins then gave the jury the law governing in such cases, after which they retired and in less than ten minutes returned a verdict of insanity. The prisoner will be taken to the Provo asylum temorrow.

LOGAN ITEMS.

# County Capital.

(Special Correspondence.) Logan, Nov. 25.—Thanksgiving day was

The city marshal of Smithfield last night arrested a tramp for stealing a horae from a resident of that place. The thief had been hanging about town for some time, and when he got rendy to leave, concluded to do so an horsehack. The animal he stole is not a very valuable one, hence he will not be tried upon any graver charge than that of petty larceny. His name could not be learned.

Thomas Woolford, of Smithfield, recent Democratic candidate for county commissioner, leaves townerrow night on a trip to Alberta. Canada, to visit friends there and look over the country, with a view of finding homes for his sons. He expects to be back by the direct of the year.

## RECEPTION TO ROUGH RIDERS. Mt. Pleasant Extends Glad Hand to Soldier Boys.

(Special Correspon

Mt. Pleasant, Nov. 25-Thanksgiving day in this city was observed by no forday in this city was observed by no formal public exercises and passed off peacefully and quiety. A reception to the returned volunteers of this city, W. O. Ash
and Louis Larsen, who were with Torrey
in Florica during the summer, was the
only notable feature of the day. Instrumental and vocal patriotic music, relicitous addresses by Professor G. H. Marshall of the Wassich academy and Professor George Christensen, principal of the
district school, to which reminiscent responses were made by the folunteers.
Messrs. Ash and Larsen, were the principal features of the programme. The addresses were highly interesting and pleased the audience immemely.

The tax collector was in this city for
the last time this year last week, collecting taxes from those who were unable to
meet him upon previous like occasions.
There still remains in the neighborhood
of, 300 unpaid taxes, and the property
which it represents will become delinquent.

Mr. and Mrs. M. A. Boyden of Silver

Wr. and Mrs. M. A. Boyden of Silver liv returned this week from Salt Lake ity, where they have been for a couple f weeks, giving their little son, who has een very ill with epileptic troubles, the enefit of specialist treatment. The boy i doing nicely, and they will return to liver City, where Mr. Boyden is station gent.

usent.
There are a number of scarlet fever-rases in this city at present, but, fortu-nately, none of them are considered dan-gerous. One family, that of Nephi Farns-worth, has five little ones sick with the

worth, has five little ones sick with the disease.

Miss Cella Hampshire sold her millinery business in this city to Miss Eloese Anierson of Mt. Pleasant and Miss Julia Elertson of Spring City.

Charles Anderson, at one time one of Sevier county's most prominent business men, but new with the Utah Nursery company, is in the city. He has been in Klondike within the past two years, and the roports he gives of that country vary considerably from those generally accepted as true. He says there is by far more money taken in to those mining regions than has ever been dug out. The stories of fabulous wealth are sent out in the interest of transportation companies, which are reuping rich harvests as a result. Mr. Anderson tells of bags filled with sand being shipped out as gold dust, and many like subterfuges practiced to substantiate the tales of wealth, and to lure the unwary prospector.

# CATTLE FOR SALT LAKE.

Use In Capital. (Special to The Herald.) Price, Utah, Nov. 25.-W. L. White, the

prominent dealer yesterday told your correspondent that owing to the preference given in rates to stock shipped east. Salt Lake buyers are going to Nevada for almost everything in the entitle line consumed in Utah towns. It is alleged that from all eastern Utah points there is a big advantage in sending both sheep and entitle to the Missouri fiver, so much so that local buyers have about given up this field, except where they can plek up exceptionally choice stuff. The live stock rate from Price to Salt Lake is 322 per car, with incidental charges for switching and extra length cars. A much lower rate in propertion to distance exists to Denver, Omaha and Kansas City.

## THANKSGIVING SERVICES.

How a Brigham Audience Was Entertained on Thursday.

(Special Correspondence.)

Brightam City, Nov. 25.—Thanksgiving day was generally observed in Brightam yesterday as a holiday. The business houses were all crosed and family gatherings were in order.

The services at life tabernacie were well and the correspondence of the proposed in the control was entertained and calliform was an address on "Thanksgiving Day," abby delivered by J. D. Call. He traced the history of the custom of observing Thanksgiving by all per subjects. He for thanksgiving by all ner subjects. He for history of the formality and the formality burners of the European powers were breaked to Erghand and the formality and the for

company.

In probate matters, the court set Dec. 15, 1888, for the settlement of the estate of Lars Rasmussen, deceased.

## SUGAR BEETS IN OPERON. Budget of News From the Cache Interesting Report Made By a Returned Lehi Expert.

County Capital.

(Special Correspondence.)

Logan, Nov. 25.—Thanksriving day was observed in the very quietest manner here. No public meetings were held during the day, and no serious disturbances of any kind have been reported. The promised game of football between the college teams falled to come off, and, exciting the halls in different parts of the city during the evening and the stration at the opera house, there was no public amusement. "The Cotton King" was presented to a fairy-sized house.

Cyrus Jones, for years connected with Z. C. M. I. here, and one of the best salesmen in the city, leaves this evening for Pocatello, where he will enter the empion of W. W. Nelson & Co. His family remains in this city for the present.

Director Luther Foster of the experiment station, who went east some time and the Association of Experiment Stations is expected home tomorrow.

Man and the control of the strength of the Association of Experiment Stations, is expected home tomorrow.

Mrs. Lucy Curdon of this city is absent, attending the funeral at Piedmont. Wyon, of Miss Katie Guild, the news of whose death was telegraphed here. Miss Guild attended school here for a number of years, and was graduated from the B. Y. college. She had many friends here.

Nephi Peterson and Ebenezer Morris, two young men from the Seventh ward, were arrested last evening for indecent exposure. They appear before Justice. (Special Correspondence,) Lehi, Nov. 25.—This week Charles Wood-

# Opera House By Dancing.

(Special Correspondence.)
Park City, Nov. S.—The grand Thanks-Park City. Nov. 25.—The grand Thanksgiving ball at the opening if the new opera house hast night was a brilliant sucoss. Fully 225 couples were present, and
the brilliantly-lighted hall, the handsomepresent and the graceful sway
of the dancers presented such a scene as
has seldom been witnessed in Park City.
Wealth, beauty and fashion inighted with
those less fortunate, and from the grand
march to the mat medley, everybody was
happy and bent upon having a good time.
The music furnished by Professor Bond,
F. A. Jennings, Eddie James and Muster
Harry Randon gave general satisfuction.
The new opera house, as a dance hall, is
far superior to any building ever creeted
in the Park for a like purpose.

All the religious denominations with the
exception of the Catholics ignored
Thanksgiving day, so far as services were
conversed.

exception of the Catholics ignore Thanksgiving day, so far as services wer Thanksgiving day, so far as services were concerned.

Coasting is the sport indulged in by the young and old of our city these days and nights. The coasting places are in excellent condition, and "schooners" loaded with six to eight will start from the upper portion of town and make a run of about three-quarters of a mile.

R. C. Chambers and H. E. Chubduck came out from Sait Lake yesterday. The latter gentleman is an export in electrical matters and is here for the purpose of giving instructions relative to the new light and power system soon to be installed for general use by the Ontario company.

company.

Miss Myrtle Weber, oldest daughter of Mr. and Mrs. J. L. Weber, came up from Ogden this week, where she is aftending school, to spend Thankagiving at home.

## LITIGANTS WERE ABSENT. Kanab Court Opens, But a Misunder-

standing Delays Business. (Special to The Herald.) Kanab, Utah, Nov. 25.—The November ranao, team Nov. 25.—118 November term of court opened here today, but litigants in civil cases were not here with witnesses ready for trial, a misuncerstanding having gotten out that court would not convene till the 25th, when the jury was subpoensed to be in attendance, liowever, demurrers, motions, etc., were disposed of, and issues in the cases framed.

disposed of, and issues in the cases framed.
Frank Seldon was arraigned on an indictiment charging him with assault with intent to murder.

W. C. Stewart was given until 18 a. m. tomorrow to plead. Owing to the irregularities in the issuance of letters testamentary in the estate of John G. Kitchen on a discrepancy of some E.00 dollars between the property mentioned in the will and the inventory appearing, the executor. James S. Emmett, who is acting without bonds, was suspended, and W. T. Stewart appointed special administrator, pending an investigation. John Semma and W. T. Stewart were appointed by the court as commissioners to select a jury panel for the year 1899.

Briefs About Provo People.

machinery of business in the Garden City began to move this inorming. Yesterday innumerable family parties made the afternoon of Thanksgiving day one of general jestivity.

## Happened at Conlville.

Logan, Utah, Nov. E.—In the district court this afternoon a case was filed by Z. C. M. I. against Samuel McMurdle of Paradise for \$1.547 and interest for one year, alloyed to be due on notes.

The attorners in the cases of J. H. White seasons various sheet-owners for tresouss were not present, hence arguments on the demarrer could not be Piles Are Ensily Cured.

Nature has provided a specific for

Nature has provided a specific for piles. It is the active principle of the common buckeys. This principle is extracted by a special process and in combination with other remedies forms Tabler's Pile Onitment.

This ointment cures nothing but piles, but it cures blind, blending and protrading piles every time. It makes operations needless; cures when operations fail. This is why physicians recommend it. Bottles, 50 cents, in special tubes for handy application, 75 cents. Can be sent by mail.

Sold by Z. C. M. I. Drug Department. an be sent by mail. Sold by Z. C. M. I. Drug Department.
